

Para-dox® Gen II Reaction Blocks

NEW! 4 and 5 Bolt Photoredox Reaction Blocks

Para-dox SLAS footprint aluminum reaction blocks are now available in a 4 or 5-bolt configuration. Some benefits of these new blocks include:

- Less bolts = less time to assemble
- Less light bleed (48 and 96 position blocks)
- Less Maintenance
- Vials fit tighter (less shifting)
- Port for thermocouple, sensors, etc.
- Corner holes on both the lid and the bottom for accessory attachment
- Longer lasting screws (larger diameter, larger threads)
- Larger holes in lid to accommodate a variety of needle sizes
- Only one 1/8" rubber mat compared to two 1/16" mats on previous versions (makes for easier assembly)
