

# BLACK TrueTaper™

*For Light Sensitive Compounds*

*TrueTaper™ 96-Well Collection Plates were designed for chromatographers faced with limited sample quantity. TrueTaper™ incorporates a smooth, tapered well shape which allows the entire sample to gravitate to the bottom of the well.*

- Square wells with unique **TAPERED** round bottoms for maximum sample recovery
- 100uL tapered bottom volume
- 2.0mL total volume capacity
