Thermal Transfer Deck & Lumidox[®] II LED Array Attachment & Removal Guide

Attaching the Thermal Transfer Deck to a Lumidox®II Solid Base LED Array:

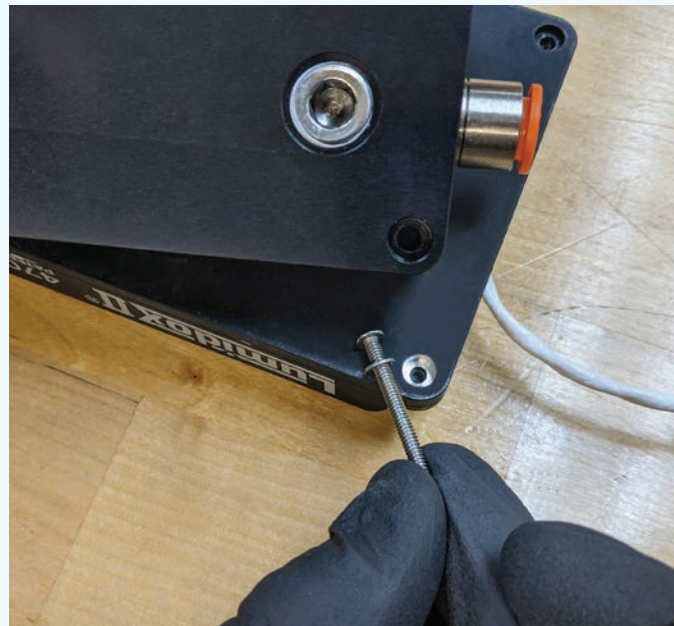

ATTENTION: THIS PROCESS REQUIRES A HIGH LEVEL OF MECHANICAL SKILL TO COMPLETE

STEP 1: Turn the Lumidox II LED array over, and using a 1/16" Allen key, remove the 4 screws securing the bottom plate.

STEP 2: Place the Thermal Transfer Deck on top of the array, and secure it using the 4 longer screws (provided), using the same 1/16" Allen key.

NOTE: Ensure that the screw with the washer is used for the shallow hole near the cable exit location.

STEP 3: Turn the Lumidox II array / Thermal Transfer Deck over. The product is now ready for use.

Removing the Thermal Transfer Deck from a Lumidox®II Solid Base LED Array:

ATTENTION: THIS PROCESS REQUIRES A HIGH LEVEL OF MECHANICAL SKILL TO COMPLETE

STEP 1: Turn the Lumidox II LED array with the Thermal Transfer Deck over, and using a 1/16" Allen key, remove the 4 screws securing them together. Gently lift the TTD away.

STEP 2: Using the same 1/16" Allen key, secure the bottom plate of the Lumidox II with the 4 shorter screws.

NOTE: Ensure that the shortest screw is used for the shallow hole near the cable exit location.

STEP 3: Turn the Lumidox II array over. The product is now ready for use.
