

Next Generation Performance

Custom Chromatography Solutions

2014

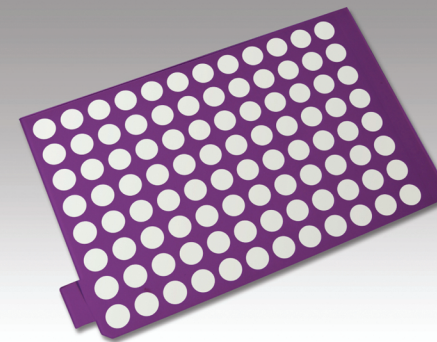

Protein Crash Plates

- Improved design & performance
- Use for plasma, urine and other bioanalysis samples
- Fully automatable, saves analyst time
- Works on all automated or current manual processing instrumentation

Cap Mats for PCR Plates

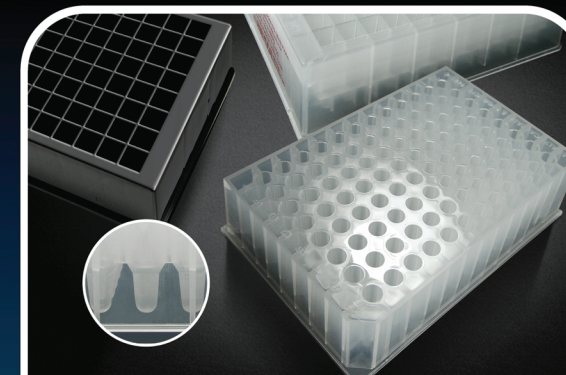

- Silicone
- Available Pre-Slit and Non Pre-Slit

Resealable Silicone Adhesive Film

(patented)

- Round, 96-Well Format
- 10 mil Thickness
- Higher Chemical Resistance and Tackiness
- DMSO Resistant

TrueTaper

96-Well Collection Plates

- Unique tapered bottom wells for maximum sample recovery
- Solvent-resistant polypropylene
- Available in 1mL and 2mL sizes
- Available in opaque black for light sensitive compounds
